

Manufacturer of Concrete Batching, Mining, & Quarrying, Blending & Asphalt Equipment

Reclaimer, truck wash out trough and conveyor

Used for reclaiming concrete, sand and aggregates from truck mixers which can be reused for the production of pre-mixed concrete.

- A trommel screen is mounted above the fines discharge screw allowing minus 6mm product to pass into the discharge screw chamber.
- 6mm plus aggregate is discharged from the trommel.
- Proven production rate 30 m³/hr.

Truck wash out trough

- 1 truck, 2 truck and 3 truck wash out troughs are available.
- Water discharge sockets allow water to wash discharged product into the reclaimer.

Conveyor

- A conveyor 4m long x 450mm wide allows aggregates from the reclaimer to stock pile.
